# ITCH WAS DREADFUL

Started in Tiny Pimples or Blisters.
Filled with Water and Burst. Gu-Healthy, Happy

"This summer I contracted exzems on my hands. It started in tiny pimples or blisters, which filled up with water. They remained filled with water for about twenty-four hours, then burst and after they discharged the water, they came to a yellow head and the itch was dreadful. My hands looked sore and I could not use them where I had to use water. I was told to wash my hands in bot water and Cutteurs Soap, dry them well and then use Cutteurs and not to place my hand in water again that day. After using the contents of one box of Cutteurs Omtiment with the Cutteurs Soap, my hands were cured of the ocsems in about three weeks and I have not had any trouble since." (Signed) Miss A.
